Ontario Mathematics Competition

2024

Acknowledgements

We want to extend our sincere appreciation to everyone who participated in the OMC 2024, either as a contestant or a proctor. As the premier Canadian student-ran competitive mathematics organization, we have come a long way since OCMC's founding as a small math club coalition in Oakville in 2022. None of this could have been possible without your support for us, and we hope you will continue supporting OCMC's projects in the future.

To all the students who competed in the OMC, we hope that this year's OMC was a good experience. We hope that you enjoyed the questions and the challenges they provided as much as we enjoyed creating them! We hope you continue following your interest in competitive mathematics and wish to see you again in the OMC next year.

To all of the proctors of the OMC, thank you all for your hard work in administering the contest. We hope our support has been prompt and helpful to you all, and we appreciate the hard work you have put into organizing this event in collaboration with us! We hope to continue collaborating with you all to bring more OCMC events to Ontario high school students.

Finally, we would like to say a huge thank you to the following companies for their generous support: TT Math, Jane Street, and Wolfram Research. Their considerable donations made it possible for us to reach out to more students and make a positive impact on their mathematical learning journeys. Thank you to all our sponsors, and we hope to see them again next year!

Atticus Zhang
Chief Executive Officer,
Ontario Competitive Mathematics Committee

Thank you again to our sponsors:

Awards, Participation, and Student Ranking

Awards

Overall Awards

Champion	Leo Wu	Bayview Secondary School	Grade 10
Second	Lei He	Oakville Trafalgar High School	Grade 10
Third	Jiahao Yu	Oakville Trafalgar High School	Grade 12

Junior Awards

Champion	Kaylyn Zhang	University of Toronto Schools	Grade 9
Second	Leo Shao	Math Attack Society	Grade 10
Third	Daksh Srivastava	Iroquois Ridge High School	Grade 9

The Junior Awards are awarded to the highest-scoring students currently in Grade 10 or lower who have not received any overall awards.

Each award winner will receive a cash prize between \$10 to \$30 and a one-year subscription to Wolfram Alpha generously donated by Jane Street, TT Math, and Wolfram Research.

Participation

Number of schools registered: 25

Total number of students participated: 574
